W. H. CHAMBERLIN, Furniture Dealer

Rugby.

On Friday evening, March 25th, a very interesting program was rendered by the local and outside talent, after which a play entitled "Mr Syke's predicament" was rendered by our local actors.

The part of Mr. Sykes was taken nicely by Arthur Perry, who acted his part to a "T" and tickled the audience greatly by his comical actions.

The Aunt's part was taken by Mrs. Hosegood in her usual exemplary manner.

The three sisters parts were taken by Mrs. Parker, Mrs. Hosegood and Miss Brubaker, who in the end found themselves in a terrible conflagration.

The maids part was taken by Mrs. Otto Krebs who saved the situation for Mr. Sykes by offering to marry him after he had been jilted by each one of the three sisters.

The proceeds which amounted to \$20 goes to the piano fund.

After lunch was served everybody tripped to music supplied by the "Rugby Ragtime band." The whole evening was generally admitted to have been most enjoyable.

The Rugby organ was also raffled off this evening, Miss Audrey Hosegood being the holder of the lucky ticket. The proceeds of the raffle amounted to \$39.50 which also went to the Rugby piano fund.

Jas. Hughes, Alec. Robertson of Didsbury, and F. Cowman of Cremona are exhibiting at the Calgary show this week.

Wait for It!

Mr. Croydon, who showed a fine line here recently of Ladies' Coats, Suits and Dresses, will be at our store again week before Easter, or thereabouts, with a large range of goods.

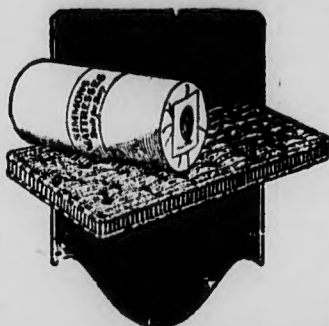

Prices to meet every purse. He promises something for everybody.

WAIT AND BE SATISFIED

EASTER SPECIAL.

Swift's Premium Skinless, Boneless, Smoked Hams, by the pound or sliced (English people will recognize this one). Swift's Premium Bacons Special prices for Easter week only.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is the "best tea you can buy"—picked when only three days old—juicy, flavor-filled leaves. Now packed in Aluminum.

Co-Operation

Since the year 1901, when a small group of farmers under the leadership of W. R. Motherwell, now Dominion Minister of Agriculture, met in the town of Indian Head and organized the 'Territorial Grain Growers' Association, the plan of applying the principles of co-operation to the solution of problems peculiar to the West has found increasing favor with both people and governments until today it has come to be recognized as the most effective means of righting many wrongs and removing grievances from which the great army of producers suffered.

At the beginning of the present century people were inclined to look to Government Ownership as the only way out of the economic difficulties with which they were confronted. The most serious problems were in relation to the marketing of grain, and the first great achievement of the Territorial Grain Growers' Association was securing the passage of the Canada Grain Act, with its loading platform feature, which had the effect of breaking the old elevator monopoly.

That in itself was not sufficient, and an agitation was begun for Government owned and operated grain elevators. This was given a trial in Manitoba, but was rejected in Saskatchewan in favor of a system of co-operative elevators, owned and operated by the farmers themselves through a joint stock company backed with financial guarantees by the Government. The Government owned system in Manitoba was not a success, and the elevators there were soon leased to a farmers' organization. The Saskatchewan Co-operative Elevator Co. was a huge success and in a comparatively few years became the greatest grain handling concern in the world.

From that time onward co-operation became a word to conjure with throughout Western Canada. Co-operative creameries, co-operative stockyards, co-operative hall insurance, co-operative wool growers' associations, quickly followed. The Grain Growers' Association was duplicated in Manitoba and Alberta and spread to Ontario. Their forces were then united in the Canadian Council of Agriculture. Co-operation brought unity and in unity the producers of the West found strength.

There yet remained one great weakness in the economic condition of the West. The increasingly large grain crops of the country were dumped on the market at one time, glutting it, breaking prices below a profitable level to the producer. The seemingly impossible task of uniting the farmers in one great co-operative enterprise to handle all their wheat and to market it in an orderly and scientific manner was undertaken through the organization of Wheat Pools. It succeeded, and the Provincial Pools organized one central selling agency. The result is common knowledge today, and the wheat pools have been followed by Cattle Grain pools, Egg and Poultry pools, Livestock pools, Dairy pools.

Truly enormous as have been the material gains to the producers of the West through this general acceptance of the principles of co-operation, resulting, as it has, in more orderly marketing, more orderly financing, in greater contentment all round, it is not altogether wide of the mark to say that even more significant and permanent effects have resulted.

The underlying principle of co-operation is that the strong shall help the weak, and that in the union of all still greater strength will be found. No member of a wheat pool, however large his resources, regardless of the size of his crop, irrespective of his financial strength, will realize the top price for his grain, and, equally so, no member however poor he may be, or small the quantity of his crop to market, will be forced to accept the lowest price. Strong and weak, rich or poor in resources, each and every member will receive the average price. In other words, some make sacrifice for the good of the many. But, in the long run, even those who seemingly do sacrifice something are the gainers because through control of the aggregate large volume of the many small producers the pool brings strength and profit to all.

Whether it is fully realized, or not by even the most enthusiastic pool advocate, the fact remains that in the development of this spirit of co-operation, and in the application of cooperative principles to the everyday business of the farm, a great work of good citizenship is being performed,—an educational movement of outstanding importance is being fostered.

Tens of thousands of men and women banded together to achieve purely material benefits find it necessary to sink all differences of race, of creed, of political faiths, and to disregard varying conditions in life. They find compromises necessary; that there must be a spirit of give and take. They make the happy discovery of each other's good qualities. Living in an atmosphere of co-operation for material gains, they unconsciously cultivate the idea. It begins to color their thought and permeate their activities. Inevitably it must display itself in municipal and school district administration. It influences church affairs, it becomes a habit, an environment affecting all community life and activities. In a word, it reflects itself in worthwhile citizenship.

And the youth of today is being brought up in this atmosphere of co-operation. It is influencing the whole thought and outlook of the boys and girls of this generation, broadening their sympathies, teaching them to work together for the common good instead of at cross purposes, developing a new sense and a finer ideal of citizenship.

Babies Cry For "Castoria"

Prepared Especially for Infants
and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it.

The genuine bears signature of

Chas. H. Fletcher.

The Gloomy Bolshevik

Visitors Are Struck by Depression
and Dejection of People in
Russia

The Bolshevik Russian is a gloomy, dismal, morbid creature, and recent visitors to Sovietland are struck with the utter depression and dejection of the hapless people who are doomed to exist there because for them there is no escape. Russia is in tragic fact an even more wretched place today than it was represented in the Russia novels of the Czarist regime, where everyone is depicted as plunged in moping melancholy.

Let us pause for a moment to shed a tear over the sad fate of the misguided humorist who gave his wife a box of pearl taploca for her birthday.

Going fishing—take Minard's Liniment.

May Prolong Life Span

Pennsylvania Doctor Has Announced
Discovery of Valuable Serum

The span of human life may be prolonged 25 years or more by a new mercury compound called Metaphen, according to Dr. George Benjamin Raizish, professor of chemotherapy at the University of Pennsylvania graduate school of medicine, discoverer of the serum. In describing the new compound, Dr. Raizish said it was the strongest antiseptic and the most powerful organic compound in chemistry. He said he hoped to develop metaphen as a possible cure for tuberculosis, influenza and septicaemia.

A life span of one hundred and twenty-five years and old age of a few months instead of many years are among the future possibilities discussed by Dr. Sege Voronoff, the eminent specialist in gland operations, before an assemblage of foreign newspaper correspondents at Paris.

It has been established, said Voronoff, that some men had lived 125 years. "Therefore," he added, "I and others have the right to live that long."

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c at all dealers.

Assistance to Settlers

The Manitoba Government, according to the Premier, will give special assistance to settlers within its borders this year. It will establish a bureau of information in connection with the plans for the development of unused agricultural lands. Several inspectors, acting under the Minister of Agriculture, will be appointed and will aid in placing new settlers in desirable locations.

Great Canadian Remedy Helped Him Like Magic

Saskatchewan Man Used Dodd's
Kidney Pills

Mr. A. M. Pacholko Who Suffered
From Backache Tells of Relief He
Sought and Found.

Jedburg, Sask. (Special) — Every corner of Canada holds at least one person who has found relief by taking Dodd's Kidney Pills. They have been relieving kidney troubles all over this vast Dominion for more than thirty-five years. They relieve only kidney trouble and those diseases that spring from disordered kidneys. That's why they are so popular today. Read what Mr. A. M. Pacholko says about them: "I have suffered from backache for a long time and have tried different things, plasters, etc., and found no benefit. Finally I tried Dodd's Kidney Pills which helped me like magic. I also found them good for that tired feeling."

Dodd's Kidney Pills have become a family remedy because people have tried them and found them good. They help Rheumatism, Lumbago, Lane Back, Heart Disease and Urinary troubles, because all of these are either kidney diseases, or are caused by the kidneys failing to do their work.

Alberta is the Corn Belt

The Province of Alberta is definitely in the corn belt of North America, says a report from the Provincial Government. Although a few years ago it was producing very little corn, this has now come to be a notable item in the annual agricultural production. Last year more than \$1,000,000 worth was produced, mainly in the southern part; and the corn exhibits were favorably commented on at various seed grain fairs.

Indians Need No Boundaries

The aboriginals of the continent know no boundary lines and may pass to and from the United States without let or hindrance, Federal Judge Dickinson has ruled at Philadelphia. The ruling was given in the test case of Paul Diabo of the Caughnawaga reservation of Montreal. Diabo was deported to Canada last March on a charge of illegal entry into the United States.

Minard's Liniment soothes tired feet.

Health Broken—Lost 66 lbs. Now Well, Won Back 82 lbs.

Ottawa merchant, formerly city officer, rundown by
kidney trouble. Wasted from 201 to 135 lbs.
Tanlac restored robust health; now
weighs 217 lbs. and feels fine

Philias Sequin's grocery at 285 St. Patrick St., is well known in Ottawa. Mr. Sequin was formerly a police officer. When ill-health seized him he lost weight rapidly. "I had kidney trouble for 6 years," he tells, "and was given up as a hopeless case. Many times, from sheer weakness, I have fallen where I stood, and had to be helped to my feet."

"Pains racked my entire system, especially my back, which felt like splitting. Needless to say, I could neither eat nor sleep normally. Weak spells and nervousness would leave me trembling all over. I faded away from 201 to 135 lbs., and tried endless treatments and remedies in those 6 years, without result."

"I had begun to despair, and when a friend advised Tanlac I was skeptical. But one month's regular use of this wonderful medicine convinced me that I was on the road to health. I kept on taking Tanlac and to my delight and surprise it made me a new man in a surprisingly short time."

Now I weigh 217 lbs., eat and sleep like a healthy boy, and feel like a different man altogether."

If neglect or overwork are taking toll of your health, try Tanlac. It is nature's own tonic, made from roots, barks and herbs. Your druggist has it. Over 52 million bottles sold.

Growth of Power Development

Quarter of Million Horse-Power
Being Developed on Winnipeg
River

By the close of the present year plans with a capacity of over a quarter of a million horse-power of hydro-electric energy will be installed on the Winnipeg River, Manitoba—a remarkable growth in twenty years. When the river is fully developed about three times this amount of power will be available, so that the city of Winnipeg and district can hope to enjoy the advantages of low-cost power for some time to come before the market having absorbed all the power available on his river will have to seek further fields to increase its energy supply.

The salient features of the last three years' progress are the expansion of the application of Winnipeg River power from an almost purely urban market to large individual outside industries, the co-operation of otherwise competing interests, and finally the remarkable growth of the power market in the rural districts.

Boy Immigration Scheme

Federal Government Co-Operating
With the Provinces by Lending
Financial Assistance

Reports reaching the Immigration Department from Manitoba indicate that Premier Bracken is favorably impressed with the boy immigration scheme, and will join up, probably, with the Federal Department. The scheme is that the Federal Department brings out the boys and makes a grant of \$50 per head to sustain them during an instruction period when they are on the farm. The farm is to be provided by the Provincial Government. Ontario and the Maritime Provinces have already come into the scheme and more than 1,000 boys will be brought out from England this year. The Manitoba Government, it is learned, already possesses a large farm which could be used for this scheme. It is located in the Bitche district.

Envy provides the mud that failure throws at success.

Alberta's Industries

Returns filed by the Alberta Bureau of Labor show the industrial payroll of the province in 1926 at \$34,991,085, of which the wage-earners' share was \$30,392,721.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is to meet such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful, health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

What is regarded as the earliest recorded fossil forest has been unearthed in New York state.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

Politeness is the zero mark of love's thermometer.

Worms in children, if they are not attended to, cause convulsions, and often death. Mother Graves' Worm Expeller will protect the children from these distressing afflictions.

"Of all the Gaul!" exclaimed Julius Caesar, as he stood on the mountain top and scanned the horizon.

Genuine
ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package
which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monochloro-acetic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

WOULD REMEDY PRESENT GRAIN GRADING SYSTEM

Moose Jaw.—Explanations of the work and objectives of the Wheat Pool committee investigating grain grading were given at the annual convention of the United Farmers of Canada, Saskatchewan Section, Limited, by Harry Marsh, Herschel, director of the Saskatchewan Wheat Pool.

The Saskatchewan Wheat Pool formed a small committee to investigate the system of grain grading in operation in Canada, said Mr. Marsh, for the purpose of finding remedies for the faults in the present system. The committee consulted with the National Research Council of Canada, and the laboratories in Saskatchewan, Alberta and Manitoba, as well as the Dominion laboratory in Winnipeg under the board of grain commissioners, were working on the problems involved. The laboratories were endeavoring to ascertain the actual values of the present grades in flour products and whether or no the milling value of wheat was injured in the drying process.

The laboratories are trying to establish the actual limit of moisture that can safely be allowed in the contract grades of wheat. At present the limit of moisture content is 14.1 per cent, but there is a widespread belief that this can safely be increased to 15 per cent, without danger of the grain being damaged in its milling value in transmission.

A second point in the laboratory investigation is to establish, as definitely as possible, the relative milling values of the various grades of wheat so as to determine whether the spreads between the grades at present are equitable from the point of view of the producer of the grain.

Mr. Marsh said it was expected that the laboratories would have solved the problems involved before the 1927 crop was marketed.

The investigating committee had visited the inspection departments in Canada and the United States and as a result of their visit the committee came to the conclusion that the inspection work was being done as well as possible under the existing circumstances. It was proposed that one grain standard should apply both to primary grain inspections and to output from terminal elevators so that the average of grade leaving the terminal elevators for export would be equal to the average at the inspection point in Winnipeg.

Italian Aviator May Come to Canada

De Pinedo May Include Dominion in His North American Flight

Montreal.—Possibility of an extension of many thousands of miles of the flight of the Italian aviator, Commander de Pinedo, is held out in advices received here from Italy. Under the new plan, if adopted, the aviator, instead of flying direct from New Orleans to Chicago and New York, would go via Galveston, San Diego and San Francisco, Seattle, Chicago, the province of Quebec in Canada and New York.

Commander de Pinedo is now on the Brazil part of his European-Western Hemisphere flight and no date is set for his arrival in Canada.

France Demands Total Tonnage

Geneva.—The French draft of a general treaty for the limitation of armaments, shows a continuation of the French insistence of a system of total naval tonnage in any allotments of naval strength, instead of the splitting up of tonnage by categories of warships, as advocated by the United States and Great Britain.

No Aid For Victims of Farmers Bank

Ottawa.—By a vote of 105 to 56, the House of Commons rejected a motion by Hon. J. W. Edwards (Conservative, Frontenac-Addington), that the Government should grant the same measure of relief to those who suffered loss through the failure of the Farmers' Bank as has been granted to those who lost through the failure of the Home Bank.

To Represent Consumers

Counsel to Look After Interests of Consumers Before Tariff Advisory Board

Ottawa.—A meeting of members of the House of Commons took the first step to provide that counsel representing consumers be permanently before the tariff advisory board when applications for increased customs tariff are heard.

During the past year counsel nominally representing George Spence (Liberal, Maple Creek), appeared on behalf of the consumers, the expense being defrayed by Mr. Spence, assisted by certain other members. However, the meeting was for the purpose of having a committee of members of the House look after it in the future. An executive was appointed but no statement was issued until the question could be more thoroughly canvassed, when another meeting will be called. There was a fairly large attendance of members not only from the West but from Ontario.

Paris Approves Idea Of Canadian Minister

But Diplomatically Appointment Is Not Considered Worth While

Paris.—The idea of a Canadian minister to France is receiving the strongest support in Paris, especially from French-Canadian trade interests, but as yet nothing is known here officially concerning the project.

It is pointed out that so far as trade between the two countries is concerned, the appointment might be opportune, but that diplomatically it hardly seems worth while.

It is believed here that Ottawa is watching the effect of Hon. Vincent Massey's appointment as Canadian ambassador to Washington and also the cost thereof, and that at the present there is little likelihood of the new policy being extended to other countries.

Many Japs Entered Canada Last Year

Majority Were Women and Children Says Minister of Immigration

Ottawa.—Four hundred and forty-three Japanese and fifty-eight Chinese entered Canada during the year 1926, according to Hon. Robert Forke, Minister of Immigration, who replied in the House to a question from A. W. Neil, Independent, Comox-Alberni, Mr. Forke stated, of the Chinese, 32 had already passed out of Canada and that no Chinese immigrants were among the number admitted.

With regard to entrance of Japanese, Mr. Forke stated that they were divided as follows: 119 males, 216 females, and 108 children under 18. There were 168 farmers and farm laborers in the number and 154 general or unskilled labor.

Maritimes Are Pleased

Lowering of Transportation Costs Will Prove of Great Benefit

Ottawa.—"The implementing of the Duncan report with regard to transportation costs and facilities will undoubtedly be a long step toward re-instating a proper basis of transportation costs and services in the Maritimes," says a statement issued here by P. C. Cornell, who presented the case for the Maritime Governments with regard to freight rates before the Duncan commission.

Mr. Cornell estimated that \$5,000,000 would be a conservative estimate of the amount involved in the rate reductions.

A Picturesque Farewell

Wellington, N.Z.—A quaint farewell message was sent by the Maori tribes to the Duke and Duchess of York who sailed for Australia after visiting New Zealand. The message reads: "Farewell to you, the snow white crane which flies but once in a life time, and to you, inestimable high born lady, good luck."

Air Mail for Canada

Ottawa.—The Government intends to establish an air mail service and to extend this to Eastern and Western Canada as conditions warrant. Hon. Fernand Rinfret, Secretary of State, said in reply to a question in the House of Commons. He gave no details as to when a start would be made to establish this service.

FAVORABLE TO AMENDMENT OF SEED GRAIN ACT

Calgary.—The inter-provincial wheat pools, at the close of its conference in Calgary unanimously approved of the resolution passed recently by the agricultural committee of the House of Commons recommending that the Dominion Seed Act be amended by granting the minister of agriculture power to refuse a license for any new variety of wheat until its quality had been established.

A committee was appointed by the directors of the inter-provincial pools, consisting of the Dominion Cerealists, a representative of the Canadian Seed Growers' Association, a representative of the seed boards of the provinces in which the new variety originates, and representatives of the pools.

The purpose of the committee will be to make a study of the quality of any proposed new variety.

C. H. Burnell, president of Manitoba Pool, in the course of a brief address in referring to a world wide organization stated that while some wheat pool men might have their heads in the clouds their feet were still in the furrow. They would certainly not be led away by prospects of a world pool if there was any danger of the Canadian producers suffering.

Limit Time of Speeches

New Rule of House Becomes Effective Next Session

Ottawa.—New rules of the House of Commons will become effective next session, the house having adopted the report of a special committee.

The house in committee of the whole approved the rule limiting general speeches in the house during debates to forty minutes, after defeating an amendment which would have added to exceptions under the rule "leaders of opposition groups." Under the new rule, no member, except the prime minister and the leader of the opposition or a minister moving a government order and a member speaking in reply immediately after such minister, or a member making a motion of "no confidence" in the government and a minister replying thereto, shall speak for more than forty minutes at a time on any debate.

Will Be Important Port

Ten Million Being Spent on Construction at Havre

London.—Havre will be one of the most important ports in Northern France, with wharfing accommodations for the largest trans-Atlantic liners, when present construction plans are developed. Lord Kylsant announced at a general meeting of the London and Thames Haven Oil Wharves, Ltd.

Huge oil storage tanks have already been built. The whole scheme is said to involve an expenditure of about \$10,000,000. The new wharf will be able to berth the Leviathan and Majestic, side by side.

British Officials Think Balkan Incident Closed

Dangerous Developments Averted by Action of Italian Government

London.—British officials believe the latest Balkan war cloud has about blown over. This view is based on the conference between Sir Austen Chamberlain, the foreign secretary, and the Marquis Della Torretta at the foreign office, in which the Italian ambassador gave Sir Austen the reasons for Italy's alarm over the Albanian situation.

The marquis also expressed the view that it was largely due to the prompt action of the Italian Government in informing the powers of its suspicions of Jugo-Slavia's intentions toward Albania that dangerous developments were averted.

Downing Street considers the incident closed. It is felt in French diplomatic quarters that the moment now is ripe to seek to remove the cause of the trouble in the Balkans by a thorough examination of the situation created by the Treaty of Tirana.

The Jugo-Slav Government, it is known, has expressed willingness to accept such procedure and it is understood that Great Britain and France are disposed to use their good offices with the Italian Government in favor of having a frank exchange of views between Italy and the Belgrade Government.

No Reciprocity Agreement

United States Will Not Enter Into Any Pact With Canada, Says U.S. Senator

Washington.—The United States won't make any reciprocity agreement with Canada along the lines suggested by Premier King, according to Senator Watson of Indiana, Republican leader.

The senator, who is a prominent member of the Senate finance committee, said Canada in any such agreement would want to exchange foodstuffs for eastern manufactured goods and this was out of the question. He asserted the farmers of the United States would never stand for it, their feelings having been stirred by failure to get farm relief legislation.

Confusion in Broadcasting

Movement Advocated in U.S. to Eliminate Nuisance Stations

New York.—Confusion in broadcasting due to delayed legislation cost the radio industry \$100,000,000, said L. B. F. Raycroft, vice-president in charge of the radio division of the National Electrical Manufacturers Association, in a statement.

Mr. Raycroft said that he was in favor of revoking the licenses of every station which jumped the wavelength reserved for Canadian use under the "gentlemen's agreement" of the Hoover conference of past years and added that all nuisance stations should be eliminated.

Customs Will Be Re-organized

Ottawa.—Final reading has been given in the Senate to a bill providing for the reorganization of the department of customs and excise under the name of department of national revenue.

SHANGHAI MOB ATTACKS BRITISH DEFENCE PARTY

London.—Lieut. Col. Heywood, of the British defence force, and a small party of Britishers narrowly escaped mobbing and possibly death in the native city of Shanghai, says a dispatch to The Daily Mail from its Shanghai correspondent, Sir Percival Phillips.

The dispatch says Lt. Col. Heywood and his party went by automobile to the native city to interview the Chinese general, Chou, to discuss means of alleviating the general situation.

The British car was caught in a seething mob of students, who, shouting "kill the foreign dogs," called for the executioner. The latter appeared in his black clothes ready to perform the duties of his office, when General Chou's bodyguard rescued the Britishers in the nick of time.

Describing the "Northerners' debacle," he correspondent says the retreating soldiers were like driven sheep. News of the arrival of the Cantonese spread like wildfire and the Northerners appeared to have but one object in life, namely, to gain the shelter of the foreign settlement barriers at which they had been sniping only a few minutes before. The correspondent estimated that at least 1,900 Northerners were killed, wounded or captured in the fighting with the Cantonese since only about 1,700 succeeded in entering the settlement.

Financial Panic at Tokio

Banks Unable to Pay Current Withdrawals Close for Adjustment

London.—Despatches from Tokio to the Exchange Telegraph announce a condition approaching financial panic there. Three banks announced they had "closed for adjustment," making a total of five which have been unable to pay current withdrawals.

The Bank of Japan called a meeting of bankers to consider coping with the situation, which is considered grave but not critical, being attributed to uneasiness over the earthquake relief legislation now before the diet.

London.—A Tokio despatch to the Exchange Telegraph says the Japanese Government has stemmed the money panic by giving assurances of unconditional support for all banks. A timely Japanese bond subscription in the United States, it adds, has tended materially to reassure the public. Nevertheless, the nervous strain left financial Tokio prostrated and extremely apprehensive, and confidence will be necessarily slow in returning.

Grants To Universities May Be Discontinued

Ontario Government Cannot Undertake to Maintain Three Says Premier

Toronto.—This will be probably the last year in which the government of Ontario will advance large grants to Queen's University, Kingston, and the Western University, London, according to Premier Howard Ferguson, speaking in the Ontario legislature as minister of education.

The time has arrived, said the premier, when a halt would have to be called to the grants to these institutions. They must not expect the province could further undertake to maintain three universities, and they must look to private sources for increased assistance.

International Pool Conference

Calgary, Alberta.—Queried here while in attendance at the inter-provincial wheat pool conference with reference to the international wheat pool conference to take place at Kansas City, Mo., early in May, George W. Robertson, secretary of the international conference, intimated that a meeting of the executive committee of the conference was to take place at Minneapolis on the 28th of this month at which the final arrangements for the programme of the conference would be made.

Congratulations From Reds

Warsaw.—The communist faction of the Polish Diet sent a message of congratulation to Shanghai on its "delivery from imperialist oppression."

ENLARGEMENT OF THE CHATEAU LAURIER HOTEL

The illustration has been prepared from the architect's drawings showing the appearance of the Chateau Laurier at Ottawa when the new wing will have been added. The structural addition to the hotel will provide for another 200 rooms, making a total of 500 rooms available for guests. With the changes, banquet hall and ballroom space and other public rooms will be provided on proper scale, thus enhancing the usefulness of this fine unit of the Canadian National Railways hotel system.

W. P. Cotton, Editor and Prop.

LOCAL AND GENERAL

Oscar Gele left on Tuesday for Ontario.

Roger Barrett received this week a carload of new "Henrys."

Cecil Adhead was busy last week unloading a car of new Chevys. for the spring trade.

Bill Derby was a visitor in Calgary on Monday.

Mrs. R. Hamper has been visiting friends in Calgary this week.

W. J. McCoy returned from the east on Monday accompanied by his mother from Madoc, Ontario.

Alson Mack, son of Chris. Mack, left on Tuesday for Rochester where he will undergo an operation. He was accompanied as far as Calgary by his sister Rosie.

Mrs. Percy Fair of Elkton, left

on Tuesday for Ganges, B.C. where she was called by the illness of her mother.

The clickety-click of the "golf-bug" was heard at the course on Sunday — a good indication that spring is on the way.

By Royal Proclamation the week commencing Sunday, April 24th, to Saturday, April 30th, has been declared "Canadian Forest Week." This is an official intimation that residents, visitors, and tourists are expected to do their best to preserve the forests from fire.

The death took place at the Didsbury hospital on Wednesday of last week of Evelyn, wife of Eugene Brooker, in her fifty-fourth year, following an operation. The deceased came to Didsbury in July of last year from Calgary and was well-known throughout the district.

A short service was held at Knox United Church on Friday at 10:30 a.m., and the body was then taken to the railway depot for shipment to Calgary.

The funeral took place in that city during the afternoon. Rev. Dr. H. H. Bingham conducted the service and the remains were laid to rest in the Burnside cemetery. A large number of floral tributes were received, and many old friends of the deceased attended the service.

The late Mrs. Brooker is survived by her husband and one son; one sister, Mrs. E. A. Laughlin, of Hanna, and two brothers, E. A. Page of Penhold, and W. I. Irwin of Prince Albert, Sask.

The arrangements for the funeral were made conjointly by the Oddfellows and Rebekahs of Calgary, Mrs. Brooker having been a member of the latter organization for many years.

Tempted either by the luscious fruit within, or perchance on other

business bent, on Friday last a dog visited the Hub Grocery and failing to gain admittance by the door jumped through a plate glass window, and then apparently startled by its own audacity beat a hasty retreat.

A bootlegger would probably say that dog "took his" by the glass.

Jack Fleury left on Friday last to meet his wife at McCleod.

The Olds Gazette states it has information that the provincial government will construct additional buildings at the Olds School of Agriculture this summer at a cost of approximately \$100,000. The structures are to be class rooms and boys' and girls' dormitories.

Subsequent to their departure from Didsbury, Mr. and Mrs. Alex Guy with their son Roy were the recipients on Friday evening last of numerous expressions of goodwill and friendship on the part of their fellow-citizens. To give everyone an opportunity of wishing them "goodbye" various organizations in conjunction with Mayor Chambers had arranged a social evening in the Opera House, and here they gathered during the evening about two hundred town and country residents, all of whom had a delightful time at cards and dancing. The prizes at progressive whist were won by Ladies', Mrs. Dooley; gentlemen, W. Leadbetter. Refreshments and community singing followed. Accompanied by a few remarks appreciative of the activity displayed by both Mr. and Mrs. Guy in work done by them for the town, as well as in connection with organizations to which they were attached, Mayor Chambers then called them to the platform and presented Mrs. Guy with a very handsome lamp and to her husband a travelling bag, whilst their son had the pleasure of receiving a very useful shaving set.

Mr. and Mrs. Guy came into the district in 1903, settling on land about twenty miles east of town, where they remained until 1914. Since that time they have resided in Didsbury, about thirteen years. They left on Tuesday for Calgary and will remain there, it is understood, until their son completed his term at Mount Royal College.

Mrs. Harry Bricker underwent two operations last week at the Calgary hospital and is now reported to be making very favourable progress towards recovery.

"The Denver Dude," a Hoot Gibson film and one of his most exciting, will be produced at the Opera House here on Saturday of this week. Full of action throughout.

Mrs. R. D. Curdy of Drumheller was visiting her mother, Mrs. A. Cressman, for a few days this week.

Morgan Cressman is taking early advantage of the "snow-flight" to commence threshing this week. Some of his grain is still in the stook and some of it he was able to stack last fall. The result of his threshing operations will be awaited with interest to see how it turns out.

A sale of home-baking will be held at the Hub Grocery on Saturday, April 9th, under the auspices of Westcott W.C.T.U.

The Trail Ranger group held their regular meeting at the home of Mrs. Phillipson on Friday, March 25th. After the devotional and business part of the program was over, the boys played games and Ormond played a fine selection on the piano. The enjoyment was greatly added to by a very tasty lunch served by Mrs. Phillipson.

Quality is the Best Policy.

AND WE HAVE IT.

C.P.R. Offers Trophies to Pig Club.

The Provincial and Dominion Governments have co-operatively organized boys' and girls' swine clubs throughout the three Western Provinces. The Canadian Pacific Railway Company offers as a prize a trophy to each of three clubs on C.P.R. lines winning these boys' and girls' swine club competitions, in Manitoba, Saskatchewan and Alberta. In addition, the winning teams (members of clubs using C.P.R. lines) will be taken to the 1927 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway Co. These three cups will be competed for each year, and each cup must be won three times by one club before it becomes the permanent property of the club. In recognition of the accomplishment of winning individual members of team, medals will also be awarded annually to be retained by them. For further information desired and assistance in organization, development and instruction, write to Mr. S. G. Carlyle, Livestock Commissioner, Parliament Buildings, Edmonton.

BIG CONSERVATIVE VOTE.

A computation of the total votes cast in the last general election from the report of the chief electoral officer just published at Ottawa shows the following official grand aggregate: Conservatives, 1,504,853; Liberals, 1,421,804; Progressives, 110,776; Liberal-Prog., 89,904; Labor, 49,793; Independent, 18,638; U.F.A., 60,740; rejected ballots, 16,554. Total vote, 3,273,068.

Burnside.

Mr. Robert Spraggs left Saturday for Grande Prairie where he expects to locate.

We are sorry to hear that Mr. T. H. Hunter of Neapolis had another slight stroke Monday morning and is in very critical condition.

The Young People's Association put on a splendid entertainment on Friday evening last in aid of the Lone Pine hall. The attendance was good and everyone enjoyed the excellent program.

Mr. Charlie Mardon is home from the Olds School of Agriculture where he has been taking a course.

Mr. Robert Service is spending a month with his old friend Mr. Harry Pearson and at the same time recuperating from a severe illness.

Don't forget the "Old Time" masquerade dance at the Lone Pine hall on April 1st. Everybody come and bring your friends and enjoy a real old time party. Ladies please bring cake.

WOMEN'S INSTITUTE.

The Women's Institute will meet at the home of Mrs. Geo. Liesmer's on Friday, April 8th at 2.30. Papers will be given on gardening and raising flowers, also a prize will be given for the best article made from a flour sack, after which these articles will be sold for 25c each. Everyone is welcome.

The Wheat Pool is warning members against purchasing for seed any of the so-called "mummy" wheat which has been advertised. "Mummy" wheat is supposed to have been found in tombs of ancient Egyptians, buried four thousand years ago. As a matter of fact wheat loses its germination power after a certain period of time.

"mummy" wheat is really an inferior grade of Durum.

His Majesty King George and H.R.H. the Prince of Wales have notified the British section of the World's Poultry Congress that they intend to exhibit poultry at the congress exhibition to be held in Ottawa from July 27 to August 4 next. There is also a possibility of the Queen of the Netherlands and King Alfonso of Spain sending exhibits, in which case the Canadian capital will be the first city in the world privileged to house the exhibits of several royal flocks.

The Indians of the three prairie provinces last season produced approximately 1,000,000 bushels of grain, of which about half, or 488,000 bushels was wheat, according to a recent government report. There are about 35,000 Indians in the area in question and the portions reserved for their use include some of the most fertile land of the west. They had 97,000 acres of land under cultivation in 1926 and they own about 25,000 head of cattle and 35,000 horses of a good type.

Warren Cordingly of Ashton, Idaho, won the 85-mile dog race from Calgary to Banff held recently in connection with the Banff annual Winter Carnival. The race was one of the hardest fought in the history of these events. Cordingly's lead dog broke down and was carried to the finish line on the sled. Ike Mills' team, of Banff, picked to win the race, was attacked by town dogs near Calgary. Both driver and dogs were badly bitten but stuck to the trail and finished.

Applications for permits to develop hydro power in Western Ontario and Northern Manitoba are on a scale that represents an ultimate volume of 5,000,000 horse-power, indicating the industrial growth that the territory is achieving. These range all the way from the Lake of the Woods country to the basin of the Nelson River, and relate to pulp and paper mills, mining plants, civic hydro promotion and transportation projects.

During 1927, more than 6,000 Hungarians will emigrate to Canada, according to Albert de Hayden, Hungarian Consul-General of Canada, who is here on business in connection with the 6,000 countrymen who came to Canada last year. "My investigations have shown," he said, "that on the average the newly arrived Hungarians are doing fairly well despite the fact that this is a dull time of the year in farming and to a lesser extent in industrial plants."

"If they can pitch ball as well as they can snowball, they would be some team; they sure can send some stingers," was the comment of one of the Calgary Scouts as he dug himself out of a concentrated volley of snowballs that the Westminster Scouts had placed on various parts of his body and face, when the Calgary boys tried to enfilade the choristers in a snow battle staged near the C.P.R. station. It was the culmination of a program arranged for the Scout choristers during the visit to Calgary recently of the Westminster Boys' Choir.

Two Makers of Canada

SIR WILLIAM VAN HORNE

LORD STRATHCONA

Among the Canadian books that have come to be recognized as standard works a high place is taken by the series known as "The Makers of Canada." They were first published by George N. Morang, of Toronto, in 1904, and comprised twenty volumes covering Canadian history from Champlain to Macdonald and from the Atlantic to the Pacific. Each period and historical figure discussed was dealt with by a scholar and writer particularly conversant with his subject, the result being to gather into the confined space of a few volumes a comprehensive view of Canadian history.

With the more than twenty years that have passed since this series was first published there has taken place a vast amount of research and discovery in the history of this country, and episodes and characters of past days are now much more clearly seen than they previously were. Thus the Oxford Press of Toronto, into whose possession the plates of these books have passed, very wisely decided to issue a new and revised edition of the series. This has been produced under the able editorship of W. L. Grant, M.A., LL.D., who has succeeded in greatly adding to the historical value of the work. Each volume has been carefully gone over and revised, and in some cases whole books have been re-written in the light of newly discovered facts.

Perhaps the most important improvement in the series is the addition of a volume on the lives and work of Lord Strathcona and Sir William Van Horne. It was obviously imperative that Western Canada should receive more attention than was possible when the series first appeared, and no better way of doing it could be devised than in presenting a faithful account of the life work of the two men who, more than anyone else, had to do with the foundation of the Canadian West. In John McNaughton's life of Strathcona and Walter Vaughan's life of Van Horne were the ideal books for the purpose. They are, of themselves, a rich storehouse of information concerning the founding and building of the West. The dynamic force of Van Horne built the Canadian Pacific, the railroad that made Confederation an actual fact. His work was and still is an epic of Canadian history and he, like Strathcona, rightly belongs to that company of giants who may properly be termed "Makers of Canada."

WORLD HAPPENINGS BRIEFLY TOLD

Major General Sir Granville Ryrie has been appointed Australian High Commissioner in London. He will succeed Sir Joseph Cook, who is retiring after many years of service in that post.

Premier Mackenzie King assured the House of Commons an extension of time would be granted this session in which civil servants might elect to come under the Calder Act for superannuation purposes.

Home Minister Hamaguchi of Japan announces that 3,274 persons were killed and 6,734 injured, and that 83 per cent. of the buildings in the affected area were wholly or partially destroyed in the recent earthquake.

To replenish depleted British Columbia herds, a carload of mountain sheep from Banff National Park and another of elk from Wainwright National Park are being brought to the province and will be released in the mountains near Spences Bridge.

Manitoba farmers are calling for British and Scandinavian farm laborers to assist in the spring work, stated an official of the Land Settlement branch of the Canadian Pacific railway, and every immigrant of this class will be certain of a position.

Creating two new records Captain F. J. Marigold, of the steamship Dalhousie City, brought his ship into Toronto Port, March 22, from Port Dalhousie. In opening navigation Captain Marigold clipped two days off his previous record. The time-honored silk hat was presented the captain.

The City of Jerusalem is the name of the first giant aeroplane of the British Imperial Airways which will connect England with India. Lord Plumer, High Commissioner of Palestine, will christen the airship at the Kalandia Aerodrome. The airship recently flew from England to inaugurate commercial aviation between Cairo and Karachi.

In a letter received by Col. J. T. Thompson, commander of school cadets in Toronto, King George highly praises the marksmanship of Canadian school boys who took second place in the Empire-wide competition for the King's trophy, and the Imperial Challenge Shield, last year. Canadian boys received the lion's share of the medals won in these competitions.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

Manitoba Good Roads

The Province of Manitoba has expended \$7,645,591 on good roads since the incorporation of the Province, according to a return tabled in the Legislature by the Hon. W. R. Clubb, Minister of Public Works. Maintenance of roads has increased from \$10,394 in 1926 to \$99,369 in 1928, owing to the inauguration of the provincial trunk highway system.

Plan to Eliminate Fog

Airplanes to be Used Over Lake Michigan for This Purpose

Flying branches of the army and navy are greatly interested in experiments shortly to be made in Chicago to determine whether the fog overhanging Lake Michigan can be eliminated by static electricity shot from airplanes.

Success will have an important bearing on the project for a \$3,000,000 airport on the lake front there. Unless the fog can be eliminated or greatly lightened, operation of the proposed airport would be much handicapped about one-third of the year.

Both the army and navy have conducted experiments along this line in the past with considerable success. Solution of the problem will be of great value to aviation in general.

Alberta Hen Wins Out

Performs Best Laying Record at Contest Held Down in Georgia

Amongst a thousand competitors from many sections of the United States, a hen owned by A. M. Dykes, of the Winter Egg Poultry Farm, Lethbridge, secured the best laying record of the International Egg Laying Contest, recently conducted by the State College of Agriculture at Athens, Georgia.

Dykes' hen was declared the best individual egg layer and accordingly won the silver cup put up for competition by the college. His hen secured 162 points out of a possible 120.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that a few children will refuse them. In some cases they cause vomiting through their action in an unsound stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear worms from the system.

Will Not Tour Dominion

Prince Intends Going Direct to Ranch From Ottawa

That the Prince of Wales would not make a general tour of the country on his next visit to Canada, but proceed direct to Ottawa and thence to his ranch in Alberta, was the statement made by Prof. W. Carlyle, manager of the prince's ranch, who arrived at St. John on the steamship Montclair. While nothing definitely had been settled, the Prince, accompanied by Premier Stanley Baldwin would probably arrive in Canada next August, the professor said.

Professor Carlyle had been on a regular visit to England to confer with the Prince on matters pertaining to the ranch.

The advisability of importing additional stock for the ranch was discussed but nothing decided as it was impossible to export cattle from England at the present time owing to the foot and mouth disease there.

Britain's Labor Problem

Urges Pensioning Workers at Age of 65 to Make Room For Able-bodied Unemployed

The pensioning of workers over sixty-five years of age to make room for England's young able-bodied unemployed was a suggestion made by Lady Cynthia Mosley, wife of the Laborite member of parliament, Oswald Mosley, at a Laborite meeting.

There were nearly 600,000 men and women, aged 65, whom it would be better to retire on pensions, drafting in their places part of England's 1,500,000 unemployed. The money saved from unemployment doles would pay the pensions, she said.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

Tourist Land Ideal

Possibly the greatest appeal of the Canadian national parks lies in the fact that notwithstanding the many conveniences introduced for the comfort of travellers through these immense virgin areas, none of the lure of the unknown has been lost. Primeval forests, peopled by hundreds of wild birds and animals, creep down to the towns in the parks and border the roads and trails. The betutiful lakes team with fish, and the upland gardens are masses of wild-flowers. Here, surely, is the tourist land ideal, where the mental and physical man may be refreshed and invigorated.

Give some people half a chance and they will take the other half.

HAD BAD SPELLS WITH HER HEART

Mrs. R. G. Hall, Bolton Centre, Ont., writes:—"Some time ago I had bad spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief until one of my friends persuaded me to get a box of

After I had taken a few boxes I got wonderful relief.

I now weigh one hundred and thirty-five pounds where, before, I never went over ninety."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

APRIL 3

PETER BECOMES A DISCIPLE OF JESUS

Golden Text: Come ye after me, and I will make you to become fishers of men.—Mark 1:17.

Lesson: Mark 1:14-18, 29-31.

Devotional Reading: Isaiah 55:1-5.

Explanations and Comments

1. Peter Becomes a Disciple of Jesus, verses 14-18.—After John the Baptist was imprisoned and his work as a herald was over (Matthew 14: 3-5; Luke 3: 19, 20), Jesus went from Judea to Galilee and there proclaimed the good news (the gospel) of God, and announced that the time had been fulfilled, the world was ready for a new order of things, and the Kingdom of God was at hand. More than a hundred times Jesus used the phrase "the Kingdom of God" or its equivalent; what did He mean by it? It is a phrase which in different passages seems to have different meanings, being now present and now future; but its usual meaning is as here, the rule of God in the hearts of men. Lo, the Kingdom is within you, Luke 17:21.

"Jesus came preaching that this Kingdom was at hand. Most of his teaching was conversational, but he preached four great sermons, all of which concerned the coming of the Kingdom. In the first, he announced that it was his mission to initiate this Kingdom. In the second he interpreted the fundamental principles on which the Kingdom would be founded. In the third, he traced the method and process of its development. In the fourth, he declared the secret of its power, a divinely inspired spirit of self-sacrifice in the heart of all its citizens. At the end of his life, in the Court of Caiaphas, he reaffirmed himself to be the long-expected Deliverer coming to establish this Kingdom of God on the earth. And after his resurrection his disciples went forth, not to teach a new ethics or a new philosophy, but to proclaim their faith in the Kingdom and in Jesus its Founder."—Lyman Abbott.

A Corrector of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Princess Louise

Duchess of Argyle, Wife of Former Governor-General of Canada, Reaches Her Eightieth Year

Many Canadians of middle age who remember when Royalty held sway at Rideau House may be surprised to learn that the Princess Louise, Duchess of Argyle, has entered upon her eightieth year. It was near the close of the '70s that Her Royal Highness, then the young and beautiful Marchioness of Lorne, came over to Canada with her husband, who had been appointed Viceroy of the Dominion. Four years previously the wedding of the Princess and Lord Lorne, son and heir of the Duke of Argyll, had taken place in St. George's chapel, Windsor, the bride being given away by her mother, Queen-Victoria. The Duchess of Argyle, as she became upon the death of her father-in-law in 1900, spent several delightful years in Canada, and she has always entertained the most affectionate regard for Canada.

Living Longer

Average Length of Life Is Now Placed at 58 Years

Is it true that everybody is living longer than his forbears, and how does that happen? wondered Dr. Charles Horace Mayo's hearers at Washington. The average length of life was twenty years in 1650; forty in 1850; forty-five in 1875; is fifty-eight now. This improvement is so, he declared, because people are learning to take better care of themselves. Said he: "The dangerous age of a woman is from 15 to 18. But the dangerous age of a man is from 50 to 55. If you can't keep your eye on them, lock them up. Gland transposition is the bunk."

Alberta Co-operative Credits

A million dollars, roughly, was advanced to the farmers of Alberta under the Co-operative Credits Act in 1926, according to the annual report of the working of that Act presented to the Legislature by Provincial Treasurer Hon. R. G. Reid. There were 33 societies with a membership of 1,355 farmers operating.

What's in a Name?

Would you buy canned goods that bore no label? Would you buy an automobile of unknown make, no matter how cheap? Nobody would be so foolish.

You get to trust a name or a label just as you get to trust a man, through satisfactory and honest dealings. That is why kitchen and household utensils bearing the SMP label are bought without question by millions of Canadians. The shield-shaped green and red SMP trademark is a guarantee of full value and best quality. The firm behind SMP goods is

Reindeer for the North

May Move Reindeer From Alaska to Canada for Food Supply for Natives

The Porssid brothers of Denmark are now in the extreme north of Canada where they are making an investigation into the possibility of moving reindeer from Alaska into Canadian territories for the purpose of maintaining the food supply of the natives, according to a wireless message received by the Northwest Territories Branch. The two brothers went into the north country last June and will not come out until the spring of 1928, when they will make their report to the Dominion Government on all phases of the reindeer question.

A BROKEN DOWN SYSTEM.
This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—broken down, as it were, of the vital forces that sustain the system. No matter what may be its causes (they are almost numberless), its symptoms are much the same: the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, this condition is absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as this right occurs the day this may be more certainly secured by a course of **THE NEW FRENCH REMEDY, THERAPION No. 3** than by any other known remedy. THERAPION No. 3 is taken in accordance with the directions accompanying it, without further care and is restored **THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH**, and a new existence is started in place of what had so lately seemed worn out, used up and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex, and is difficult to imagine a disease or derangement whose main feature is weakness that will not be speedily and permanently overcome by this recuperative remedy, which has been used for so long and with such success that it has become a household name everywhere. It has been prescribed for this wide spread and numerous condition thousands of times, and has been found to be the most effective remedy. Sold by leading Chemists, druggists and by mail order. **DR. L. C. LEBLANC Med. Co., Montreal, P. Q., and Dr. W. A. London.**

Things to Worry About.

When running to town to do your shopping, stop running when you get to our store.

We Can Save Every Customer Money.

HOW ?

Buy in quantities. Everybody should buy at least a month's supply, and get a substantial discount for cash. We only sell well known and good goods.

Spring work is starting soon. Bring in a list and we will save you money and guarantee satisfaction.

SPECIAL.

We have on our Premium Specials a Ten Quart White Enamel Pail with Soap at **\$1.75**
Very good value.

Anyone having FAT BEEF for sale should **Phone 65**

FOR SALE.—FORD light delivery truck, in good condition, cheap. For cash or trade. Cressman Bros.

NOTICE.

On and after APRIL 10th Adshead's Garage will be open on SUNDAYS from 9 a.m. to 5 p.m. for minor troubles only.

Church Announcements

EVANGELICAL NOTES.

During Passion (Holy) Week from Palm Sunday to Easter Sunday inclusive, there will be a service in the church every evening. "The Atonement" will be the pastor's sermon theme throughout the week.

Special recognition will be given to the children in the evening service on Palm Sunday. A sacred drama entitled "The Challenge of the Cross", will be rendered by members of the Junior League. Then following a brief graduation exercise, diplomas will be awarded to a number of boys and girls in recognition of their accomplishments in the study of catechism, etc.

Our annual business meeting of the Conference year ending March 31st, will take place on Tuesday evening, April 5th.

Mr. and Mrs. W. E. Reider and son Wilbur of Siebertsville, moved here to Didsbury last week and are getting settled these days. As a name well and favorably known in evangelical circles a hearty welcome into our midst is extended to them at this time.

KNOX AND WESTCOTT UNITED CHURCH.

Sunday, April 3rd, the minister is taking the subject "Christ before Pilate." Pilate was the Roman governor who washed his hands of responsibility. There is an "inside" story to Pilate's life which throws much light on the great trial scene. The mob cried out, "If you let this Man go, This was too much for Pilate and he gave in. The Minister thou art not Caesar's friend." will tell this story Sunday, bringing to it those sidelights which give the story its vivid setting.

Lone Pine Hall, Jutland

On Tuesday evening, April 5th commencing at 8.15 p.m. there will be given a lantern lecture entitled "South" showing the heroic struggle made to discover the south pole. The lecture will occupy about an hour, after which a social time will be held, followed by a supper. The event is under the auspices of the United Church. You will be assured of an interesting and profitable evening. The usual charge will be made.

LUTHERAN CHURCH.

Westcott 10.30—German.

Usually some time passes from the moment a man is sentenced to the moment the sentence is executed. With the Romans it was not less than ten days. But no such custom was followed in the case of Jesus. No sooner was He delivered, than He was taken out and crucified. The mockery preceding the Crucifixion, the way to the cross, and the crucifixion itself will be dealt with in the Lenten Service on Sunday.

On Sunday next, Palm Sunday a special reunion service of all the confirmants will be held in the morning, while the evening service again will be devoted to a Lenten subject. Definite announcements will be made next week.

CANADIAN DOLLAR AT NEW HIGH LEVEL.

The Canadian dollar, which was at a discount of 13-64 of one per cent. early this month, necessitating the shipment of gold from Montreal to New York, was quoted in the foreign exchange market in New York on Monday at a premium of 1-8 of one per cent., a new high

level for the year. Monday's rate is within 1-16 of one per cent. of the point which would make profitable the return of gold to Canada.

The heavy demand for Canadian bills arises from the unusually early opening of Great Lakes Navigation and the flow of investment capital across the northern border.
